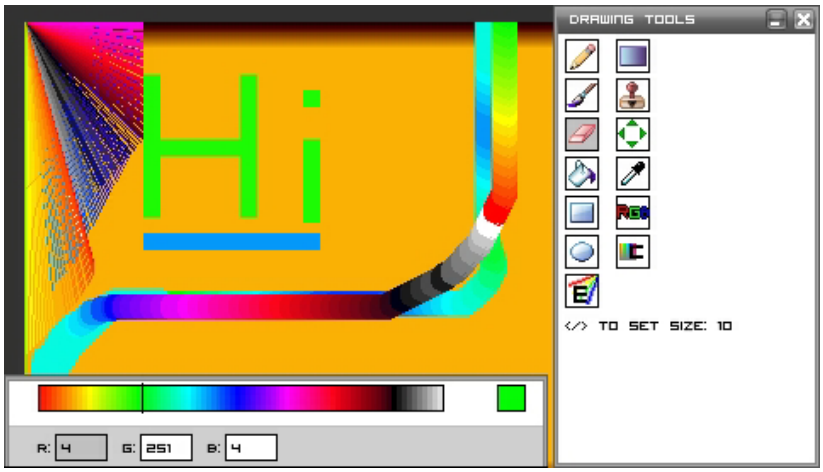
Bermuda CS 6 Lite is a graphics-suite for the Sony PSP. It gives you the ability of creating your own pictures right on your PSP. This PDF tells you about the controls of Bermuda CS 6 Lite. Have Fun!

1. Start up the program. After the splash, a white "window" will appear. There you can set the resolution of the new picture. There's no size-limit, you cant set it whatever yozu want. Navigate through this menu with UP and DOWN, set the size with RIGHT or LEFT. Confirm with CROSS.

Now the main-application has started. On the right, you see a menu with all the available drawing-tools. Navigate though this menu with UP and DOWN. On the bottom, there is the shortcut-palette. Change color with L and R.



Tool-information:
Pencil: press CROSS to draw, set the size of the pencil with RIGHT or LEFT
Brush: press CROSS to draw
Eraser: press CROSS to draw, set the size of the eraser with RIGHT or LEFT
Paint Bucket(Fill screen): press CROSS to fill the screen with a specific color
Rectangle: press CROSS to draw, navigate through the settings with TRIANGLE. Change value with RIGHT or LEFT.
Circle: press CROSS to draw, RIGHT or LEFT to set radius
Effect Draw: press CROSS to draw, RIGHT or LEFT to choose effect draw
Gradient: press CROSS to fill screen with gradient
Stamp: press CROSS to draw stamps, RIGHT or LEFT to choose stamp
Move Picture: Move the DPad to move around the picture
Pipette: press CROSS to choose color from screen. Switch back to colors from shortcut-palette by pressing L or R
RGB: press RIGHT or LEFT to set R/G/B-value, CIRCLE or SQUARE to switch between R,G,B. Switch back to colors from shortcut-palette by pressing L or R
Palette: press CROSS to choose color from palette. Switch back to colors from shortcut-palette by pressing L or R

To change to the Settings-menu, press SELECT. Available options: Save picture, Open picture, New picture, Enable/Disable USB-Mode, Set DPad-sensitivity. Press SELECT one more time to hide all menus. Press Select again to show Drawing Tools.

Its not very easy at the beginning, but dont give up. It takes much time to draw a good picture, but it is possible. I hope you'll like it...
